WATERCOLOR OPTIONS

Create beautiful watercolor effects on your stationery by choosing one of these options.
Watercolors are printed using standard digital printing - no special ink is used.

Watercolors are recommended for use on fonts and small graphic elements.
They are **not recommended** for large areas or backgrounds.
For best results, watercolors should be used on white backgrounds and paper.

METALLIC OPTIONS

These options are budget-friendly faux-metallic, meaning **no real metallic ink will print**.
To obtain a better metallic effect, it is recommended to print on metallic paper.

GLITTER OPTIONS

These are faux-glitter options. No real glitter will print.
